

Polizos Genealogy Notes

We do not know the exact birth order of Apostolos Polizos' children. It is believed that Apostolos came to Skopelos from mainland Greece following the Greek War of Independence (1821-1832).

Reading the Tree: Our outlines are color coded by generations. In our outlines, the formal birth / baptismal name is written first and sometimes followed by a middle name in instances when the middle name is not the father's first name. Any name seen in quotation marks is the name that friends and family would call that individual. Any change in a last name is indicated in **Bold** characters.

Greek Naming Tradition: Greek tradition prescribes that the first male offspring are named after the paternal grandfather. Similarly, the first female offspring are usually named after the paternal grandmother. Further offspring are named after the maternal grandparents. All middle names (regardless of the child's gender) are the father's first name. For example: Apostolos Nikolaos Polizos' first son would be named Nikolaos after his grandfather, with his father's name, Apostolos as a middle name. Nikolaos' first son would be named Apostolos after his grandfather and so on. In the family tree below, we have listed only middle names that differ from the "traditional" father's first name format.

In Greece, women's surnames take the possessive form (genitive form in Latin) of their fathers' last names and after marriage, their husbands' last names. We document all women born in Greece in this way. For example, the last name *Polizos* changes to *Polizou* (belonging to Polizos), *Hirras* changes to *Hirra*, and *Sideris* becomes *Sideri*. The last names of women born in America stay the same as their father's and husband's names and we have documented all names in America this way.

Name changes in the diaspora: In the USA while researching the genealogy of the family, we found Polizos also spelled as 'Polizo or Pelezo.' One branch of the family, even changed their name to Jackson. Other families in America, with the same Greek spelling of Polizos, spell their last name, 'Polyzos.' They have kept the phonetic Greek letter "Y" (a vowel in the Greek alphabet – sounds like "ee" in the English language) instead of "I" we use in spelling the name. These families have their origins from Karpenisi in Central Greece and are not related to us.

All Greek names are spelled phonetically rather than using some common English spellings. For example: Hristina is typically spelled Christina in America. If born in Greece, we use the phonetical Hristina instead to accurately mimic the Greek pronunciation.

Varsamas' name is spelled as 'Valsama' by both of his grandsons Vic and Victor in America. Both names are used in Skopelos.

The following is a glossary of some Greek names and their English equivalents:

(56 yrs old – intestinal obstruction, heart failure) married: Apr. 4, 1989

Triandafilos left for "America" around 1880 with promises to send his sisters silk slippers; he was never heard from by his family in Skopelos again. In February 2012, thanks to theskopelosproject.com, a family connection was made by Triandafilos' descendants and our genealogy team, allowing us to have all current information about this branch of the family. We discovered that he arrived in Australia and gave his name as Treantafolas Apostle Polizos. He later officially changed his name to George Polizo. The research is ongoing.
